

Atlas ConneX Card

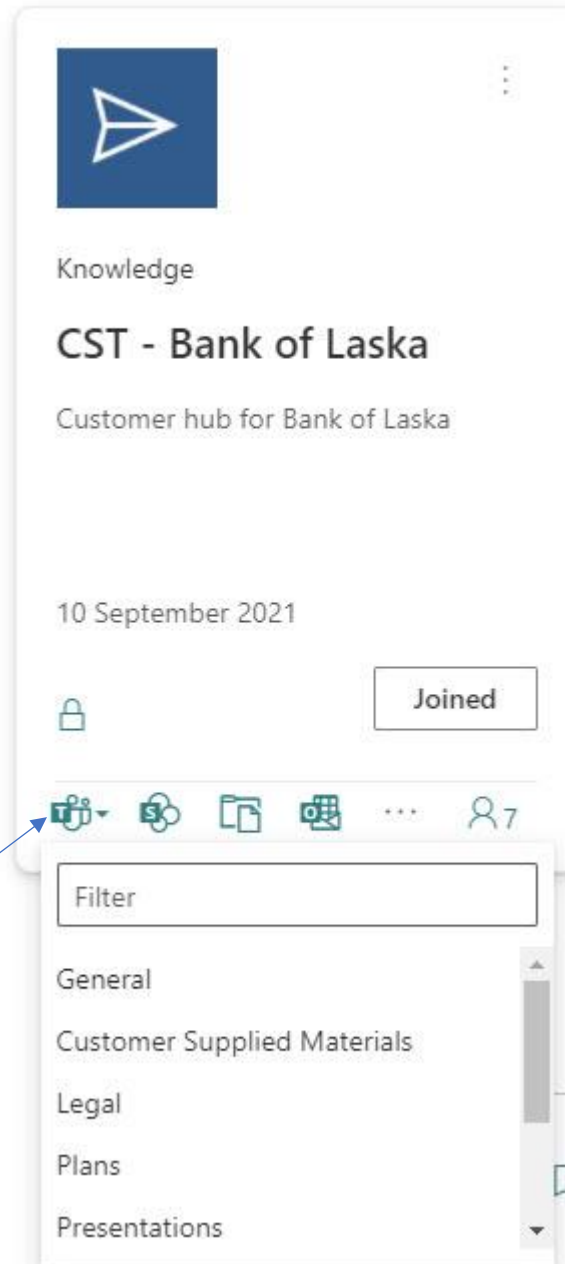

The 1st icon will show if the Workspace is Teams, Yammer or Sharepoint as this will be the default icon.

You can choose to click the icon or when the card is clicked it will open this application.

If Teams, see the next page for Channels information.

Atlas ConneX Card – Accessing Teams Channels

When the 1st icon is showing as Teams, you can select the drop down to go directly into a specific channel.

This can be done by typing the channel you wish to view. Or selecting from the list.

If you do not see a channel drop down, this will be due to not having permissions. You would need to Join the Workspace in order to see this.
